INDEX

A

ACTH, effect on sloughing frequency of normal and thyroidectomized *Anolis carolinensis* of, 129.
Acclimation to freshwater by the earthworm, 247.
Acid mucopolysaccharides in tunic, 379.
Adaptation to (hyperbaric) oxygen by annelids, 235.
Aequipecten irradians, reproductive physiological variation in latitudinally separated populations of, 56.
AHMED, M. AND A. K. SPARKS. Chromosome number, structure and autosomal polymorphism in the marine mussels *Mytilus edulis* and *Mytilus californianus*, 1.
α-ecdysone and cyasterone, inactivation by fleshfly larvae and silkworm pupae of, 326.
α-ecdysone in silkworm pupae, distribution and metabolism of, 115.
ALVARADO, R. H. See T. H. DIETZ, 247.
Amino acids, translocation and utilization of by starfish, 14.
Amphiura chiajei, maturation of the gonads and seasonal cycle of the planktonic larvae of, 262.
ANDERSON, D. G. See J. R. RICE, 334.
Anemone, sea, burrowing behavior of, 316.
Annual reproductive cycle of *Amphiura chiajei* Forbes, 262.
Annual reproductive cycle of bay scallops, 56.
Anolis carolinensis, normal and thyroidectomized, effect of ACTH on sloughing frequency of, 129.
Antheraea polyphemus pupae, distribution and metabolism of α-ecdysone in, 115.
Aquarium, survival of unfed squid in, 389.
Arbacia punctulata, division times of whole eggs and haploid and diploid half-eggs of, 184.
Ascidians, blood cells and tunic of, 354.
Autoradiography of gut mucous cells in Echinoidea, 286.
Autoradiography of starfish, 14.
Axial units of flatworm spermatozoa, 219.

B

Barnacle nauplii, function of the frontolateral horns and horn glands of, 211.
Behavior and movements of weakly electric fishes, 200.
Biosynthesis of crassin acetate in *Pseudoplexaura porosa*, 334.
Blood cells and tunic of ascidians, 354, 379.
Bugula stolonifera, genetics of, 138.
Burrowing behavior of the sea anemone, 316.

C

CALDER, D. R. Hydroid and young medusa stages of *Dipurena strangulata* (Hydrozoa, Corynidae), 109.
Cell division rate of sea urchin eggs, 184.
Cephalopoda, laboratory maintenance of squid, 389.
Cercariae, marine, of the Woods Hole Massachusetts region, 66.
Cesium-137 gamma rays, effect on regeneration in *Tubularia* of, 194.
CHERBAS, L. AND P. CHERBAS. Distribution and metabolism of α-ecdysone in pupae of the silkworm *Antheraea polyphemus*, 115.
CHERBAS, P. See L. CHERBAS, 115.
CHIU, K. W. AND W. G. LYNN. The effect of ACTH on the sloughing frequency of normal and thyroidectomized *Anolis carolinensis* (Iguanidae, Lacertilia), 129.
Chlamydomonas eugametos, effect of concanavalin A upon the mating-type reaction of, 88.
Chlamydomonas moewusii, effect of concanavalin A upon the mating-type reaction of, 88.
Chloride transport in the osmotic and ionic regulation in the earthworm, 247.
Chromatophores in the prawn, 26.
Chromosome number and structure in *Mytilus*, 1.
Cirripedia nauplii, function of the frontolateral horns and horn glands of, 211.
Cnidaria, *Dipurena strangulata*, developmental stages of, 109.
Coelenterate behavior, 316.
Coelomic fluid composition in the earthworm, 247.
COLE, K. S. AND D. L. GILBERT. Jet propulsion of squid, 245.
Color changes in the prawn, 26.

Concanavalin A, effect on the mating-type reaction of chlamydomonads of, 88.
Control of ion balance in the earthworm, 247.
Crab, horseshoe, osmotic and ionic regulation in, 157.
Crassin acetate, isolation, localization and biosynthesis of in *Pseudoplexaura porosa*, 334.
Crassostrea virginica, influence of salinity and temperature on physiological activities of predators of, 35.
Crop fluid composition in the earthworm, 247.
Cyasterone and α-ecdysone, inactivation by fleshfly larvae and silkworm pupae of, 326.

D

Defense against predation by barnacle nauplii, 211.
DIETZ, T. H. AND R. H. ALVARADO. Osmotic and ionic regulation in *Lumbricus terrestris* L., 247.
Diploid half-eggs of sea urchins, division times of, 184.
Dipurena strangulata, hydroid and young medusa stages of, 109.
Discharge characteristics of electric gymnotid fishes, 200.
Distribution and metabolism of α-ecdysone in pupae of *Antheraea polyphemus*, 115.
Diurnal movements of electric gymnotid fishes, 200.
Division times of whole, haploid and diploid half-eggs of sea urchins, 184.
Dosidicus gigas, jet propulsion of, 245.
Drills, oyster, influence of salinity and temperature on physiological activities of, 35.
Drosophila imaginal discs, metamorphosis of, 47.
Drosophila melanogaster, hormonal control of metamorphosis, 47.
Dugesia tigrina, role of illumination and temperature in the control of sexual reproduction in, 77.

E

Earthworms, osmotic and ionic regulation in, 247.
Ecdysone analogues, induction of metamorphosis in *Drosophila* imaginal discs by, 47.
Echinaster echinophorus, translocation and utilization of amino acids by, 14.
Echinoderm eggs, division times of, 184.
Echinodermata, comparative study of gut mucous cells in thirty-seven species of Echinoidea, 286.
Ectoprocta, phylum of, population genetics of marine species of, 138.
Effects of ACTH on skin histology in lizard, 129.
Effects of temperature and salinity on maturation of *Hydroides dianthus*, 306.
Eggs of sea urchins, division times of, 184.
Electric field, regenerative ability in ligated stems of *Tubularia* in an, 344.
Electric gymnotid fishes, diurnal movements and discharge characteristics of, 200.
Electro-location mechanism, use of by weakly electric fishes, 200.
Electron microscopy of flatworm spermatozoa, 219.
Electrophoresis of marine species of the phylum Ectoprocta, 138.
Environmental effects on Muricidae, 35.
Environmental induction of sexual reproduction in *Dugesia tigrina*, 77.
Environmentally induced or genetic variation of the bay scallop, 56.
Eupleura caudata, effects of salinity and temperature on feeding, reproductive and survival rates of, 35.
Extracellular volume of *Limulus*, 157.

F

Fecundity of *Hydroides dianthus*, 306.
Feeding rate of marine prosobranch gastropods, effects of salinity and temperature on, 35.
FENAUX, L. Maturation of the gonads and seasonal cycle of the planktonic larvae of the ophiuroid *Amphiura chiajei* Forbes, 262.
FERGUSON, J. C. An autoradiographic study of the translocation and utilization of amino acids by starfish, 14.
FINGERMAN, M. Dual control of the leucophores in the prawn, *Palaemonetes vulgaris*, by pigment-dispersing and pigment-concentrating substances, 26.
Fishes, electric gymnotid, diurnal movements and discharge characteristics of, 200.
Flatworm microtubules, negative staining of, 219.
Fleshfly, inactivation of α-ecdysone and cyasterone by, 326.
Frontolateral horns and horn glands of barnacle nauplii, function of, 211.

G

Gametogenesis in *Aequipecten irradians*, 56.
Gametogenesis of *Hydroides dianthus*, 306.
Gamma rays, cesium-137, effect on regeneration in *Tubularia* of, 194.
Gastropods, feeding and reproductive rates of marine prosobranchs, 35.

Gel filtration on Sephadex LH-20 to separate dispersing and concentrating substances in white pigment of the prawn, 26.
Genetics, population, of marine species of the phylum Ectoprocta, 138.
GHISELIN, M. T. See N. D. HOLLAND, 286.
GILBERT, D. L. See K. S. COLE, 245.
Gonad maturation of the planktonic larvae of *Amphiura chiajei*, 262.
GOOCH, J. L. AND T. J. M. SCHOPF. Population genetics of marine species of the phylum Ectoprocta, 138.
Gut mucous cells in thirty-seven species of Echinoidea, comparative study of, 286.

H

Habitat of *Limulus*, 157.
Halocynthia aurantium, blood cells and tunic of, 354, 379.
Haploid half-eggs of sea urchins, division times of, 184.
HEATH, J. E. AND R. K. JOSEPHSON. Body temperature and singing in the katydid *Neoconocephalus robustus* (Orthoptera, Tettigoniidae), 272.
Hemolymph circulation in the silkworm, 115.
Histochemistry of blood cells of *Halocynthia aurantium*, 379.
Histochemistry of gut mucous cells in Echinoidea, 286.
HOLLAND, N. C. AND M. T. GHISELIN. A comparative study of gut mucous cells in thirty-seven species of the class Echinoidea (Echinodermata), 286.
Hormonal control of metamorphosis in *Drosophila melanogaster*, 47.
Horn glands and frontolateral horns of barnacle nauplii, function of, 211.
Hydration of muscles of *Limulus*, 157.
Hydroid and young medusa stages of *Dipurena strangulata*, 109.
Hydroides dianthus, maturation of, 306.
Hydrozoa, life history of *Dipurena*, 109.

I

Illumination and temperature in the control of sexual reproduction of *Dugesia tigrina*, 77.
Inactivation of α-ecdysone and cyasterone by fleshfly larvae and silkworm pupae, 326.
Injury response in ascidians, 354.
Insect endocrinology, 47.
Interrupted doses in oxygen poisoning in annelids, 235.
Intracellular composition of muscle of *Limulus*, 157.
Ionic and osmotic regulation in *Limulus polyphemus*, 157.
Ionic regulation in *Lumbricus terrestris*, L., 247.
Isolation of crassin acetate in *Pseudoplexaura porosa*, 334.
Isopods, osmoregulatory capabilities in, 96.

J

Jet propulsion of squid, 245.
JOSEPHSON, R. B. See J. E. HEATH, 272.

K

Katydid, body temperature and singing in, 272.

L

Larvae, planktonic, of *Amphiura chiajei*, maturation of the gonads and seasonal cycle of, 262.
Larval trematodes of the Woods Hole area, 66.
LEONE, D. E. The maturation of *Hydroides dianthus*, 306.
Leucophores in the prawn dual control by pigment-dispersing and pigment-concentrating substances of, 26.
Life-history of *Dipurena strangulata*, 109.
Ligia occidentalis, osmoregulatory capabilities in, 96.
Ligia pallasii, osmoregulatory capabilities in, 96.
Light in planarian reproduction, 77.
Limulus polyphemus, osmotic and ionic regulation in, 157.
LIUZZI, A. See M. SLAUGHTER, 194.
Localization of crassin acetate in *Pseudoplexaura porosa*, 334.
Loligo pealei, survival, unfed, in an aquarium, 389.
Loligo vulgaris, jet propulsion of, 245.
Lumbricus terrestris L., osmotic and ionic regulation in, 247.
LYNN, W. G. See K. W. CHIU, 129.
Lytechinus pictus, division times of whole eggs and haploid and diploid half-eggs of, 184.

M

MCMAHON, J. J. See W. C. SUMMERS, 389.
MANGUM, D. C. Burrowing behavior of the sea anemone *Phyllactis*, 316.
MANZI, J. J. Combined effects of salinity and temperature on the feeding, reproductive and survival rates of *Eupleura caudata* (Say) and *Urosalpinx cinerea* (Say) (Prosobranchia: Muricidae), 35.
Marine cercariae of Woods Hole Massachusetts, 66.
Marine Hydrozoa, hydroid and young medusa stages of *Dipurena*, 109.

Marine trematodes of the Woods Hole area, 66.
Mating in Chlamydomonads, 88.
Maturation of *Hydroides dianthus*, 306.
Medusa, young, and hydroid stages of *Dipurena strangulata*, 109.
Metabolism and distribution of α-ecdysone in pupae of *Antheraea polyphemus*, 115.
Metamorphosis of *Drosophila* discs, 47.
Microtubules of *Stylochus zebra*, 219.
Mitosis of sea urchin eggs, 184.
Morphogenetic fields of *Tubularia*, 344.
Mucopolysaccharides and gut mucous cells of Echinoidea, 286.
Muricidae, environmental effects on, 35.
Muscle, *Limulus*, nitrogenous constituents in, 157.
Mussels, marine, chromosome number, structure and autosomal polymorphism in, 1.
Mytilus californianus, and *M. edulis*, chromosome number, structure and autosomal polymorphism in, 1.

N

Negative staining of microtubules, 219.
Neoconocephalus robustus, body temperature and singing in, 272.
Nephridial clearance in osmotic and ionic regulation in the earthworm, 247.
Nitrogenous constituents of muscle in *Limulus*, 157.
Nuclear-cytoplasmic relations in the mitosis of sea urchin eggs, 184.

O

OHTAKI, T. AND C. M. WILLIAMS. Inactivation of α-ecdysone and cyasterone by larvae of the fleshfly, *Sarcophaga peregrina*, and pupae of the silkworm, *Samia cynthia*, 326.
Oligochaeta, response to oxygen exposure of, 235.
Osmoregulation in isopods, 96.
Osmotic and ionic regulation in *Limulus polyphemus*, 157.
Osmotic regulation in *Lumbricus terrestris* L., 247.
Oxygen toxicity in annelids, 235.

P

Palaemonetes vulgaris, control by pigment-dispersing and pigment-concentrating substances of the leucophores in, 26.
PAPASTEPHANOU, C. See J. R. RICE, 334.
Parasitic trematodes, marine larval, of the Woods Hole area, 66.
Partition of cells between blood and tunic in *Halocynthia aurantium*, 354.
Phagocytosis in ascidians, 354.
Phosphotungstic acid, use of in negative staining of microtubules, 219.
Photoperiodism in *Dugesia tigrina*, 77.
Phyllactis, burrowing behavior of, 316.
Pigment-concentrating substances, control of leucophores in the prawn by, 26.
Pigment-dispersing substances, control of leucophores in the prawn by, 26.
Planarians, role of illumination and temperature in the control of sexual reproduction in, 77.
Platyhelminthes, negative staining of sperm microtubules of, 219.
Polymorphism, autosomal, in *Mytilus*, 1.
Population genetics of marine species of the phylum Ectoprocta, 138.
POSTLETHWAIT, J. H. AND H. A. SCHNEIDERMAN. Induction of metamorphosis by ecdysone analogues: *Drosophila* imaginal discs cultured *in vivo*, 47.
Prawn, *Palaemonetes vulgaris*, control by pigment-dispersing and pigment-concentrating substances of the leucophores in, 26.
Protein-polysaccharide complexes in tunic, 379.
Pseudoplexaura porosa, isolation, localization and biosynthesis of crassin acetate in, 334.

R

Recovery from hyperbaric oxygen exposure by annelids, 235.
Rectal fluid composition in the earthworm, 247.
Regeneration in ligated stems of *Tubularia* in an electric field, 344.
Regeneration in *Tubularia*, effect of cesium-137 gamma rays on, 194.
Repair after oxygen damage in annelids, 235.
Reproduction of *Hydroides dianthus*, 306.
Reproductive cycle of *Amphiura chiajei* Forbes, 262.
Reproductive rates of marine prosobranch gastropods, effects of salinity and temperature on, 35.
RICE, J. R., C. PAPASTEPHANOU AND D. G. ANDERSON. Isolation, localization and biosynthesis of crassin acetate in *Pseudoplexaura porosa* (Houttuyn), 334.
ROBERTSON, J. D. Osmotic and ionic regulation in the horseshoe crab *Limulus polyphemus* (Linnaeus), 157.
ROSE, F. C. See M. SLAUGHTER, 194.
ROSE, S. M. Restoration of regenerative ability in ligated stems of *Tubularia* in an electric field, 344.
RUSTAD, L. C. See R. C. RUSTAD, 184.
RUSTAD, R. C., S. YUYAMA AND L. C. RUSTAD. Nuclear-cytoplasmic relations in the

mitosis of sea urchin eggs. II. The division times of whole eggs and haploid and diploid half-eggs, 184.

S

Salinity and temperature, effects on feeding, reproductive and survival rates of marine prosobranch gastropods, 35.

Salinity and temperature, effects on the maturation of *Hydroides dianthus*, 306.

Salinity effects on serum and muscle composition of *Limulus*, 157.

Salt depletion in the earthworm, 247.

Samia cynthia pupae, inactivation of α-ecdysone and cyasterone by, 326.

Sarcophaga peregrina larvae, inactivation of α-ecdysone and cyasterone, 326.

SASTRY, A. N. Reproductive physiological variation in latitudinally separated populations of the bay scallop, *Aequipecten irradians*, Lamarck, 56.

Scallop, bay, reproductive physiological variation in latitudinally separated populations of, 56.

Schizoporella unicornis, genetics of, 138.

SCHNEIDERMAN, H. A. See J. H. POSTLETHWAIT, 47.

SCHOPF, T. J. M. See J. L. GOOCH, 138.

Sea urchin eggs, division times of, 184.

Seasonal cycle of the planktonic larve of *Amphiura chiajei*, 262.

Sephadex LH-20 with gel filtration to separate the dispersing and concentrating substances of the white pigment of the prawn, 26.

Serum, blood, in *Limulus*, inorganic composition of, 157.

Sexual reproduction in *Dugesia tigrina*, role of illumination and temperature in the control of, 77.

SHOEMAKER, D. W. See L. WIESE, 88.

Silkworm, distribution and metabolism of α-ecdysone in pupae of, 115.

Silkworm, inactivation of α-ecdysone and cyasterone by, 326.

Singing in the katydid, 272.

Skin histology in lizard, effects of ACTH on, 129.

SLAUGHTER, M., F. C. ROSE AND A. LIUZZI. The effect of cesium-137 gamma rays on regeneration in *Tubularia*, 194.

Sloughing frequency of normal and thyroidectomized *Anolis carolinensis*, effect of ACTH on, 129.

SMITH, M. J. The blood cells and tunic of the ascidian *Halocynthia aurantium* (Pallas). I. Hematology, tunic morphology, and partition of cells between blood and tunic, 354.

SMITH, M. J. The blood cells and tunic of the ascidian *Halocynthia aurantium* (Pallas). II. Histochemistry of the blood cells and tunic, 379.

Sodium transport in the osmotic and ionic regulation in the earthworm, 247.

SPARKS, A. K. See M. AHMED, 1.

Spermatozoa of *Stylochus zebra*, transitions between helical and protofibrillar configurations in doublet and singlet microtubules in, 219.

Squid, jet propulsion of, 245.

Squid, unfed, survival in an aquarium of, 389.

Starfish, translocation and utilization of amino acids by, 14.

STEINBACH, A. B. Diurnal movements and discharge characteristics of electric gymnotid fishes in the Rio Negro, Brazil, 200.

STUNKARD, H. W. The marine cercariae of the Woods Hole Massachusetts region, 66.
